

INJEKTOR SALAMURE HPI 1000 S

BRINE INJECTOR HPI 1000 S

SERVO INJEKTOR

HPI 1000 S je servo injektor sa transportnom trakom iz serije HPI. On je projektovan za precizno ubrizgavanje u male komade živinskog mesa ili ribu i jednostavno povezivanje sa protočnim zamrzivačima/IQF linijama. HPI S je uspešno uveo i poseban postupak proizvodnje veganskih zamena za meso.

SERVO INJEKTOR

The HPI 1000 S is a servo-controlled injector with a transport belt from the HPI series. It is produced in order to inject small poultry parts or fish exactly and in order to realize an easy connection to IQF lines. In addition, with the HPI S, a special process for the production of vegan meat substitutes was successfully established on the market.

HPI 1000 S

Radna širina / working width	1.000
---------------------------------	-------

Pomak u mm/hodu advance in mm/stroke	115/230
---	---------

Broj igala, jedna glava quantity of needles injector with single head	968
---	-----

Broj igala, dve glave quantity of needles injector with double head	594/890
---	---------

Transportni sistem / transport system	Transportna traka conveyer belt
--	------------------------------------

Visina hoda u mm / stroke height in mm	230
---	-----

Pritisak salamure u bar / brine pressure in bar	0,5 - 4
--	---------

Brzina hoda / stroke speed	15 - 90
-------------------------------	---------

Priključna snaga u kW connection power in kW	35
---	----

Dužina u mm / length (mm)	3.200
------------------------------	-------

Širina u mm / width (mm)	1.530
-----------------------------	-------

Visina u mm / height (mm)	2.250
------------------------------	-------

Masa u kg / weight (kg)	2.240
-------------------------	-------
