

Cortex CB 519 •

- **Cutting width:** 500 mm
- **Cutting speed:** 31 m/min
- Automatic conveyorised derinding machines with different cutting widths for the meat industry
- Long conveyors
- High cutting speed
- Pressure system with special geometry and spring detection for dynamic adaptation to products of different heights

Options:

- Suspended version for plant specific adaption
- Skin removal conveyor
- Skin removal conveyor from the side with separate drive
- Plastic modular belts
- Inflated pressure balloon
- Transfer plate for passage without processing
- NOCK ACTIVE SKIN GRIPPER® (ASG)
- Cleaning trolley / storage trolley
